lidovky.cz **READERS**
Zpravodajský server Lidových novin

Lidovky.cz originated as the news server of Lidové noviny in June 2006. Since then, it has enlarged and now, it is a website which is offering a variety of specialized websites and pages on top of a non-stop service providing actual news.

The news service and the views are of the greatest importance on Lidovky.cz. They are accompanied by exclusive content not published in Lidové noviny (Lidové newspaper), such as complete interviews or audios. As for the big cases and events, readers find special tabloids on the server.

Along with the news, Lidovky.cz embodied a variety of excellent websites. Concerning views, Czech internet legend Ondřej Neff and his Invisible dog is a close collaborator of the server. Also, special websites, such as Bydlení (Housing), Auto (Cars), Svět techniky (The world of technology), games pages Sudoku.cz have been run on the server. Every day, polymetrician Bohumil Doležal writes an exclusive comment, readers can run their blog and also, an outstanding website iReferáty (iPapers) intended to students is part of the website. Quite exceptional is the sport tabloid called Výsledky.com (results.com). Without exaggeration, we can call Lidovky.cz the server for the hard-to-please readers.

NetMonitor

A research project providing information about visit rates and visitors' sociodemographic profile in the Czech Republic.

The project has been ordered by the SPIR (the Association for Internet Advertisement), the Mediaresearch, a. s. company in cooperation with the Gemius S. A. company carry out the project.

NetMonitor joins two research projects – Measurement of Internet visit rates and Research of visitors' sociodemography in the Czech Republic.
